

### ***Election/Restrictions***

The amendment filed on 7/21/2008 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the method as originally claimed required placing a bone anchor in the pubic bone. The new claims require only anchoring the sling to soft tissue or fascia, a bone anchor is not required and the anchor is not placed in the pubic bone. The shift in the anchoring position introduces a method which is distinct from the methods previously presented and examined in the office action of 3/20/2008.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
